This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

Introduction.

A CHRONOLOGICAL EXTRACT OF THE ANCIENT NAME OF WILSON, FROM DU BARD.

THE first of that name came from Denmark when the Danes invaded England, which having succeeded and England subdued, that name flourished, with large possessions in Cheshire, Lancashire, Yorkshire, and spread even to Scotland. Dubar—Wilson il parloit de argent, a wolf salient vert, armed and langued gules. So the paternal coat of that name is a wolf, which they carried in Denmark, and in England, during the subjection of that kingdom to the Danes; but upon the revolution of state in England, by assassinating the Danes, those who escaped of that name went into France, and added to their arms a chief sable, in commemoration of the bloody misfortune that had happened to the other part of their family; so, from the expulsion of the Danes, that name bore argent, a wolf salient vert, armed langued gules, and a chief sable.

Afterwards some of that name purchased land in France, and had joined William of Normandy, when he reached England in 1066, upon which they had a lys of France between two stars of six rays upon the chief sable. Part of the family is now in Ireland, and the entire blazon of their armorial coat is de argent, a wolf salient vert armed, and langued gules on a chief sable, a lys of France betwixt two stars of six rays Or, above the helmet a wreath of his colour; and crest a demy wolf, first underneath his shield, in Asserall, the motto :—

Providentia et Labore or
Ovium qui Velatus.

The above was sent to Daniel Wilson, of Dallam Tower, in 1749.

NOTE.—Mr. FOSTER will esteem it a favour to be informed of any mistakes which may be noticed, so that they may be corrected in a subsequent issue.
